Information about holding restrictions or results of analysis relevant to public health.
Sign at the end of this document to confirm the below:

- The holding is not under movement restrictions for any other animal disease or public health reason.
- Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animal(s) while on this holding and any previous holdings.
- To the best of my knowledge, no quinolones or 3rd/4th generation cephalosporins have been used in any of the animals' lifetime.
- To the best of my knowledge the animals are not suffering from any disease or condition that may affect the safety of meat derived from them.
- No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.
- None of the animals on this consignment are either cloned or progeny of cloned animals.

Data Protection

Having provided the information attached, as requested by Dunbia (UK). I hereby agree that my data be processed for purposes of supplying red meat products. I am aware that the data will be held securely and be shared to relevant third parties. In cases where consent is required, I am aware that I can withdraw my consent at any point as required by the GDPR.

I declare the above information is correct and that all animals supplied conform to the applicable scheme requirements
